

Ch.S.D.St.Theresa's College for Women (A), Eluru

Annual Report 2022-2023

Ch.S.D.St. Theresa's College for Women (A), renowned for its exceptional standards of education, has established itself as a distinguished institution within the realms of Higher Education in our country. Having autonomously functioned for an impressive duration of 35 years, our college has excelled in academic excellence, evident through our attainment of A+ grade in all four cycles of NAAC accreditation and a remarkable 3.56 CGPA on a 4-point scale. Notably, in 2019, we were bestowed with the esteemed recognition by UGC as a College of Excellence, a testament to our commitment to fostering a culture of quality education. Subsequently, under the RUSA 2.0 initiative, a substantial grant of 5 Crore was allocated to St. Theresa's College to further enhance our educational offerings. As members of the Theresian family, we humbly express our gratitude to the divine providence for guiding and blessing our institution abundantly over the course of the past seven decades.

Infrastructure Up gradation:

The transformation of traditional classrooms into specialized facilities catering to the Agriculture and Rural Development course symbolizes a shift towards innovative and hands-on learning practices. In a strategic move, a dedicated portion of the grounds was repurposed to cultivate a variety of essential crops such as millets, corn, and other staple agricultural produce. This adaptation has not only offered students a practical outlet to apply theoretical knowledge gained in the classroom but has also fostered a deeper understanding and appreciation for sustainable farming practices. By immersing themselves in the cultivation process, students are able to witness first-hand the intricacies of crop management, soil health, and environmental impact, thus enriching their educational journey and preparing them for real-world challenges in the agriculture sector. This holistic approach to education not only benefits the students directly involved in the course but also serves as a tangible example of how academia can intersect with practical, on-the-ground applications to promote long-term sustainability and rural development.

3. PATENT TITLE: CUSTOMISABLE INSTANT NON-ELECTRIC WINDING, ALL PURPOSE WEARABLE NOTIFIER BAND Mrs.M.Durgadevi, Assistant professor in mathematics, M.Sc Mathematics Department
4. Copy RIGHT: Copy right approved from COPY RIGHT OFFICE, Govt. Of India. TITLE: LUCID DREAM MATHEMATICS: TOPOLOGY Mrs. M.Durgadevi, Assistant professor in mathematics, M.Sc Mathematics Department

Physics

5. Dr. A. Nirmala Jyothsna published a **patent** on “**A Nano material composition having magnetic properties**” with the patent office journal number: 06/2022 dated on 11th February 2022 in collaboration with Mr. C. Selvaraju, department of physics, VSS government college, Pulankurichi, Tamilnadu, India.

Chemistry

6. Dr.V.Nagalakshmi published a patent on **“Metal complexes and composition with novel Synthesis, Characterization, and Properties of Binuclear Gold(I) Phosphine Alkynyl Complexes”** with the patent office journal number 05/2022 dated on 04th February 2022. This patent was filed on 12th January, 2022 with application number 202241001883 A in collaboration with Dr. Kumara Swamy Jella, Associate Professor, Department of Chemistry, Chaitanya Deemed to be University, Hanamkonda, Warangal, Telangana, India, Pincode:506001.
7. Dr.K.SwarnaLatha published a patent on **“Method For The Synthesis Of Mixed Metal Nanoscale Composites Using Low Cost Precursors”** with the patent office journal number 07/2022 dated on 18th February 2022. This patent was filed on 22nd January, 2022 with application number 202221003745 A in collaboration with Dr. Wasudeo Balaji Gurnule, Professor, Department of Chemistry, Kamla Nehru Mahavidyalaya,Nagpur, Maharashtra, India, Pincode: 440024
8. Dr.V.Nagalakshmi published a patent on **“Predict the occurrence of radiation fog using statistical and ML models”** with the patent office journal number 24/2022 dated on 17th June, 2022. This patent was filed on 28th May, 2022 with application number 202241030690 in collaboration with Dr. Rajesh Kanna M.R, Associate Professor, Department of Mathematics, Sri D.DevarajUrs Government First Grade College, Hunsur, Karnataka, India, Pincode:571105 Hunsur.
9. Dr.V.Nagalakshmi published a patent on **“Method For Detection And Quantification Of Target Biomolecules”** with the patent office journal number 24/2022 dated on 17th June, 2022. This patent was filed on 13th June, 2022 with application number 202241033642 in collaboration with Dr. B. B. V. Sailaja, Associate Professor, Department of Chemistry, Andhra University, Visakhapatnam, Andhra Pradesh, India, Pincode: 530003,Visakhapatnam
10. Dr.C.A.Jyothirmayee published a patent on **“Designing A Nanostructured Photovoltaics On Solar Panels To Increase The Efficiency Of Solar Energy Utilization”** with the patent office journal number 29/2022 dated on 22nd July, 2022. This patent was filed on 11th July, 2022 with application number 202241039620 in collaboration with Vijayalakshmi K, Assistant Professor, Department Of Eee, Srmist Ramapuram Campus Chennai
11. Dr.N.Gayatri Devi published a patent on **“ Compare And Contrast The Pros And Cons Of Toxicity Levels Of Bismuth Perovskite Based Solar Cells Against Lead-Based Ones”** with patent office journal 39/2022 dated on 30th September 2022. This patent was filed on 19th september 2022 with application number 202241053601 in collaboration with Sarvani Jowhar Khanam , Research Scholar,University Of Hyderabad, Hyderabad.
