MATLAB INTERNSHIP

Department of mathematics organized an online internship on "MATLAB" (the language of technical computing)for six days i.e from 30th November to 5th December 2020 for the second MSc students of both mathematics and chemistry . The resource persons was Dr.K . Srinivasa Rao professor & head of the department of mathematics SCSVMV University, Kanchipuram, Tamilnadu.

The main objectives of the programme

. To provide a theoretical& practical introduction to MATLAB

. MATLAB functions

.To write simple MATLAB programs

.To solve numerical computation, visualization and programming with the knowledge of MATLAB tools.

 Each day the pre-lunch session was theoretical session of matlab   where as the post lunch session was the more advanced part of the course i.e practical session.
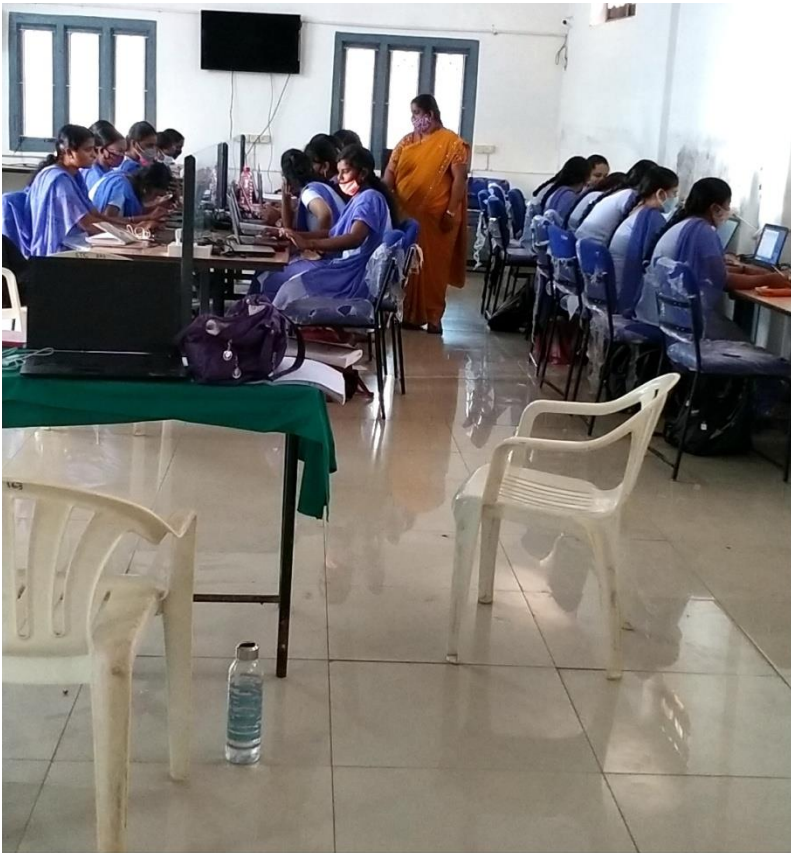

Every day in the afternoon session students were given hands on training in MATLAB programming.

All the sessions were very interactive and the students were demonstrated with various programs related to signal processing. Through this internship the students were able to explore the impact of MATLAB in the industry and academics. On the whole, through this internship 52 students were benefitted.
