NOVEMBER

NEWSLETTER 2018

Signing In:

In the Christian calendar of months, November has a very special significance. It is a stark reminder of the reality of death and prompting us to turn our thoughts towards something more important and lasting. A Pot was once asked "How do you remain cool in every situation?" The Pot answered, "I just remind myself that I am made of mud and will return to mud. Then why to have pride and anger." Enjoy every moment we have by God's grace because in life no rewinds but only flashbacks. This single and short life is very precious. Very true that we have many impediments and issues in life, but when we think that others face greater problems than ours, then our spirits become lighter and cooler. Let's cherish the Winter season along with our campus activities of this month.

Principal's Desk:

The month of November brings in pleasant feelings in us as the climate begins to be mild and comfortable. We have been blessed with a beautiful weather. I'm sure everyone is relishing the chill mornings and cool evenings. This is the second last month of the year. I wonder how quickly we are winding up 2018. So fast the years are flying. As we know time and tide wait for none, we need to travel along with the time. That's fixed. So let's learn from our past failures and be grateful to God for all His blessings and His companionship throughout this year. We have seen better days, we have also seen worse.

We may not have all that we want but we need to learn to enjoy all that we have. It's not about how long we lived rather how well we lived.

Yesterday is already a history, tomorrow is not certain but TODAY is the day which is called present. So Let's all try to live in this present with full consciousness and we shall see how our world changes for the better.

- Dr. Sr. Mercy.
